Mancinza Civil Contractors & Roads cc

COMPANY
PROFILE.

ABOUT US

Mancinza Civils Contractors is a young, black female-owned construction company based in Eshowe, KwaZulu-Natal. Since our founding in 2002, we have earned a solid reputation for delivering top-quality workmanship, on time and within budget. We are registered with the CIDB, holding the following grades: 7CE PE, 6GB PE, and 4ME PE.

Our expertise includes project management and the construction of new developments. We manage projects from start to finish, offering services such as Preliminary Planning, Market Research, Environmental Impact Assessments, Re-Zoning, Town Planning Approvals, Architectural and Civil Engineering Design, Municipal Plan Approval, and Construction.

At Mancinza Civils, we take pride in our unwavering commitment to employee safety and the long-standing relationships we have built through years of quality workmanship and integrity. These relationships enable us to provide dynamic and professional services to our customers, giving clients the confidence that their projects will be completed on time and to the highest quality standards.

Our focus is on delivering a professional and flexible service that helps us retain our clients and contracts. We aim to achieve this through consistent, high-quality service delivery. Rather than striving to be the biggest, we focus on being the best. This philosophy guides all our decisions and allows us to grow selectively, ensuring that our directorate and management remain closely connected to the needs of our customers, clients, suppliers, employees, and business partners.

Nomvelo, our hands-on executive, appointed by the non-executive board members, plays a crucial role in achieving Mancinza Civils' goals. She is deeply committed to fulfilling the company's promise of excellent service delivery and superior performance.

.Mancinza Civils is strategically positioned to reap the rewards of our successful enterprise. Our company was born from the extensive expertise of our management team in civil and road construction, and we continue to pursue government and private contracts to secure long-term success.

Management and Staff

We are fully committed to delivering superior quality service, and we are confident in our ability to achieve this through the development of our employees. We focus on cultivating a skilled, service-driven, and motivated workforce to meet our goals

We have recruited specialists and highly qualified staff to ensure the highest standards of service. Each team member performs tasks based on their expertise and delegated responsibilities.

Our team includes one full-time Contract Manager, who also serves as our Quantity Surveyor, along with three fully qualified Site Agents and three Foremen, each responsible for specific areas—building, roads, and water projects. Additionally, we employ casual artisans and local general laborers based on the specifications of each project.
